

## **BRIEF CHARACTERISTICS OF BED FEATHER AUXILIARIES**

### **Detergents**

#### **DEHACLIN PRE**

Detergent with an excellent detergent effect and a good emulsifying capacity for feathers with a medium fat content.

#### **DEHACLIN DP**

Detergent with an excellent fat solubilizing effect even in a cold bath for critical articles, feathers from well-fed animals with a high fat content or feathers containing plucking wax.

#### **DEHACLEAN NATURAL NEU**

Special detergent based on 100 % renewable surfactant with excellent degreasing for washing downs and feathers.

#### **DEHACLIN FN 100**

Special detergent with a high wetting capacity for feathers with a high fat content and an intense detergent effect even in cold liquors.

### **Removal and coverage of bad odour**

#### **PEROCLIN FWG 401**

Product for a permanent masking of odour in case of duck feathers without antimicrobial additives.

### **Improvement of the degree of whiteness**

#### **DEHACLIN AF SUPRA**

Optical brightener for promoting the detergent effect of DEHACLIN detergents which provides the feathers with a high degree of whiteness.

#### **DEHA BRILLIANT VIOLET READY**

Product for a better white effect on feathers & downs.

## **Antistatics**

### **RECONDIT 674**

Antistatic agent which does not impair the ratings (oxygen number, transparency, residual fat content) and which leaves a dry fabric handle, a good filling power without a dust-binding effect.

### **RECONDIT CH**

Antistatic for sorting with a good dust-binding capacity which facilitates the separation of feathers and down and which produces thus a higher down yield, so that the fabric handle gets sleekier.

## **Special finishing agents**

### **NOCAR® WL**

Easy care finishing for feathers and down which allows washing the treated articles at higher temperatures. Feathers and down do not form lumps with moisture impact and they dry more quickly. Feathers become odour-repellent and the filling power is increased.

### **DEHA DUFT SUN**

Scent for feathers and down, ideal for washed feathers which have been externally purchased and which are then only steamed on.

### **DEHALAN HWD**

Softener with additional scents to increase the filling power.

### **DEHALAN MIP**

Product to bind the dust of feathers and downs.

### **DEHALAN 7140 ECO**

Special product for a water repellency treatment of feathers and downs.

### **DEHA FLAME RETARDANT BKW**

Flame retardant finish which makes feathers and down flame retardant according to the Japanese standard (tablet test). The product is stable to dry cleaning and does not contain any harmful ingredients.

## **Products for cleaning complete pillows and covers**

### **DEHACLIN SW**

Special detergent with scents for cleaning fillings made of finest natural hair, silk and wool.

### **DEHACLIN NW**

Detergent for second hand feathers and feathers with a low fat content, e.g China and chicken feathers.

### **DEHATEX ML**

Low foaming, scented special detergent for washing complete covers, pillows, sleeping bags and clothes.

### **RECONDIT RO EXTRA**

Antistatic agent for loosening used feathers and down. It reduces the electrostatic charge and prevents thus the feathers from sticking to machine walls and windows.
